

JOHNSON COUNTY A COMMUNITY PREPARED

Severe Weather Awareness Seminar Series

OVERVIEW:

Johnson County Emergency Management & Homeland Security would like to invite you to the first ever Severe Weather Awareness Seminar Series. An educational presentation has been developed based on the unique needs and challenges of your particular industry.

The presentation will provide you information about severe weather events including how your business can prepare for, respond to, and recover from this type of hazard. There will also be interactive opportunities to engage representatives from other businesses in your sector on operational practices that will help mitigate these hazards.
